3. How much premium do I have to pay for my private car insurance and how do I make the premium payment?

The total premium that you have to pay may vary depending on the sum insured of vehicle, No-Claim-Discount (NCD) entitlement and the underwriting requirements of the insurance company.

Premium payment can be made via cash, credit/debit card, online banking and cheque.

4. What are the fees and charges that I have to pay?

The fees and charges that you will have to pay are:

Type	Amount
Service Tax	6% of the premium
Stamp Duty	RM10.00

5. What are some of the key terms and conditions that I should be aware of?

- **Duty of disclosure** – you must disclose all material facts such as previous claim history and any modification made to the engine capacity.
- Average Clause will apply if vehicle is under insured for more than 10% of the market value at the time of loss. Therefore, it is important that you must ensure that your vehicle is insured at adequate market value to avoid under or over insurance.
- **The excess**, that is the amount of loss you have to bear if your vehicle is driven by a person not named in your policy: RM400.00.
- Betterment will apply when in the course of repairing an accident-damaged vehicle (age of vehicle is five years and above), and old part is replaced with a new franchise part. You will have to bear the difference in cost (depending on the age of your vehicle) as your repaired vehicle is in a better condition than it was before the accident.

6. At what value should I insure my vehicle?

You are advised to insure your vehicle based on the market value of your vehicle at the point you apply for the motor insurance policy. This value is also called Sum Insured of your vehicle in your motor policy. Tune Insurance refers to the ISM Insurance Services Malaysia Berhad's vehicle valuation database system for market value, where available.

7. What will happen if I under insure my vehicle?

You will be deemed as self-insured for the difference, i.e. in the event of loss or damage, you will be partially compensated (up to the proportion of insurance) by the insurance company.

8. What will happen if I over insure my vehicle?

If you insure your vehicle at a sum insured higher than the market value, the maximum compensation you will receive in the event of loss or damage is the market value of the vehicle at the time of loss/claim.

For example, should you be required by your financier to insure the vehicle with a higher sum than the vehicle's market value to match the outstanding loan balance, the difference between the market value and the outstanding loan balance will not be covered despite the higher sum insured.

This is not applicable to policies on Agreed Value basis.

9. Why should I choose the recommended market value as the policy sum insured?

If you have chosen our recommended market value that is based on ISM Automobile Business Intelligence System (ISM-ABI), your policy shall be printed with Endorsement 113 (Reference to Motor Vehicle Market Valuation System). When a claim is made, the market value of your vehicle at the time of loss will be determined by referring to the ISM-ABI.

Average Clause shall be applicable in the event of loss/ claim if you under insured your vehicle lower than 10% of the ISM market value.

10. What are the major exclusions under this policy?

This policy does not cover certain losses, such as:

- Your own death or bodily injury due to a motor accident;
- Your liability against claims from passengers in your vehicle; and
- Loss, damage or liability arising from an act of nature i.e. flood, storm or landslide.
- Consequential loss, depreciation, wear and tear, mechanical or electrical breakdown failures or breakages.

(Note: This list is non-exhaustive. Please refer to the sample policy contract for the full list of exclusions under this policy).

11. Can I cancel my policy?
